

**AMENDMENTS TO THE ABSTRACT OF THE DISCLOSURE**

*Kindly replace the original Abstract of the Disclosure with the following amended Abstract of the Disclosure. A clean version of the amended Abstract of the Disclosure is attached as a separate sheet to the end of this Amendment.*

**ABSTRACT OF THE DISCLOSURE**

An ~~entrapped~~ entrapment detection device of an opening-closing member which ~~is opening and closing~~ opens and closes an opening portion of a vehicle body includes a driving power source for ~~moves~~ moving the opening-closing member, a motivity transmission member provided between the opening-closing member and the driving power source, a deformation member configured to be deformed via the motivity transmission member in accordance with the load applied to the opening-closing member at during an opening-closing operation of the opening-closing member, a strain gauge assembled to the deformation member and configured to convert a strain according to the deformation of the deformation member to an electric signal and a control mechanism for detecting an entrapment of an external object based on the electric signal from the strain gauge. ~~a detection device for entrapment of an opening-closing member.~~
